Dear EPA,

I was born in Brooklyn and still live in New York City, so this issue is not just "close to home" for me, it is home.

I support the EPA's designation of the Gowanus Canal as a Superfund Site. Furthermore, I believe that the most effective way to achieve a clean Gowanus is in accordance with the high environmental and safety standards that are a part of EPA's Superfund National Priorities List program.

Sincerely,
June Muller
